The Boys & Girls Club of Dane County held a ribbon-cutting ceremony on April 17 to celebrate the renovation of its technology lab. The renovation was made possible with the help of a generous $17,000 donation from Gordon Meicher, managing principal of Meicher CPAs and Associates, LLP, and the money will be used to upgrade computers, add software capabilities, and offer new programming potential.

“We sincerely believe organizations such as the Boys & Girls Club enable success by opening doors for many of our young people,” said Meicher in a release. “We know their success would not be possible if the resources to support our youth were not available. We are thankful we can provide these resources to the Boys & Girls Club.”

Michael Johnson, CEO of the Boys & Girls Club of Dane County, added, “The remodeled space will be great for our young technology-driven members because it will inspire them to continue being creative and bring out their full potential.”

Gordon Meicher (upper left) holds a plaque awarded to him by Michael Johnson (upper right), CEO of the Boys & Girls Club of Dane County. The donation, together with community support, upgrades the technology lab and brings smiles and opportunity to area youth.
